

CONVEYANCE SOLUTIONS

VOLTA FOOD BELTING

Cheese, poultry, meat, fish, seafood, fruit and vegetable, chocolate, snack food, nut, and bakery facilities all use Volta's homogeneous food belting in a variety of applications.

POPULAR APPLICATIONS

- Deboning Operations
- Dicing Equipment
- Dough Return Conveyors
- Dump and Pack Tables
- Inspection Lines
- Knife Edge Transfer Lines
- Lettuce Washing Machines
- Metal Detectors
- Optical Scanners
- Press Machines
- Slicing and Filleting
- Vegetable Washing Lines

TOUGH, VERSATILE AND EASY TO MAINTAIN

The homogeneous no-ply construction of Volta belting eliminates the need to have edge capping, while its non-absorbent material makes the belts bacteria resistant and impenetrable by most chemicals. These advantages create a belt ideal for many food handling environments.

LARGE OFFERING OF OPTIONS

Available in blue or cream, Volta's product line meets FDA, USDA and 3A Dairy requirements. It also offers multiple covers and has a variety of fabrication options:

- Crescent and spike tops for chicken splicing lines
- Cleated sidewall belts to carry products up inclines
- Meat-cleat and IRT (rooftop) profiles to raise product
- ITO-50 (pebbletop) for a low profile impression

Need help choosing the best option? Mi Conveyance Solutions has the knowledge, expertise and inventory to support your most stringent requirements and help you make the right decision from the start.

Partners. The Best Part of All.®
